Nuts and Bolts of learning
Noticing- When you use this learning muscle, you-
• notice how things look, what they are made of, or how they behave
• are patient, knowing that may take time to emerge
• can identify significant detail
• get a clear sense of what, before starting to think why or how
Welcome to our interns Olivia Suckling and Emily Stein who will be working in both Gayle and my classroom this term. The girls will be using the school scope and sequence to plan for learning.

The students’ should be commended on their excellent behaviour displayed when leaving the school last Friday. They all showed positive attitudes and great manners when visiting another school.

Gayle Pinn will be back from leave on Wednesday.
